

HEALTH & SAFETY GUIDELINES

Hospital Escape Terror™

- Guests must be 13 years old and above to be allowed to experience this VR activity.
- Guests with the following conditions are prohibited from engaging in this VR activity: pregnant, motion sickness, under the influence of alcohol, physical ailments or any other medical condition including any type of heart condition that may be aggravated by VR activities.
- A portion of the VR activities will require participants to stand while engaging. To ensure safety, please do not participate in clothes and shoes that may hinder movement such as sandals, open toe shoes, and high heels.
- Wearing glasses with the VR goggles is permitted, however, depending on size and shape; certain glasses may not fit into the VR goggles. It is recommended to use contact lens.

We assume no responsibility for damage done to glasses and ask participants to use caution when wearing glasses. In addition, using bifocal contact lens/glasses may affect the VR experience.

- Players may experience eye fatigue, dizziness, loss of balance, nausea, motion sickness like symptoms, etc. If you start to feel sick or any other abnormalities, stop use immediately and rest until you have recovered. In addition, the above symptoms may occur after your VR experience. In this case please rest until you have fully recovered.
- To ensure your safety, please obey the instructions of the on-duty staff at all times.
- Food, drink, bubble gum and sharp objects are not allowed.
- Strollers are not allowed inside the activity area and should be parked in the designated area
- Queue jumping is not tolerated within the VR Zone. Guests are not permitted to save places in queue, bypass others in queue, or exit the queue and return to the same place for any reason, Guests exiting a queue must go to the back of the queue if they choose to return.
