Rules and Guidelines

## HOW TO PLAY

Sic Bo is a game that is played using a clear glass dome. A cover is placed on the dome and the dice are tumbled mechanically. You can bet on the combinations of the dice by placing gaming chips in the different betting areas. Odds for bets vary from even money to 180 to 1.

## HOW TO PLAY

1. After the dice have been tumbled you may place your bets. Bet on what you think will be showing face up on the dice when they are uncovered.
2. The Dealer calls "No more bets" and removes the cover from the dome.
3. After announcing the result, the table is lit up so that you can see the winning bet and odds.
4. The Dealer shall remove all losing bets and pay winning bets at the odds displayed.
